

Why is your union talking about politics? Your paycheque, and your rights (like vacation time, over-time pay and a safe workplace) are in the hands of our government. Our province administrates the health care system, education system and minimum wage laws that protect and care for your family.

We have the facts on which candidate in your area will work for working people.

ask questions.let's talk.

... all meetings will take place at 7 p.m... CUPE members, and their families and neighbours should attend...
